re: **Approval of Application for Brownfields Cleanup Funding at the (former) Jean's Barbershop, Reno, Nevada**

Dear Ms. Royal-Goodwin,

The Nevada Division of Environmental Protection, Brownfields Program has received your Brownfields Funding Application submitted by the City of Reno for cleanup services at the former Jean's Barbershop, 1405 Oliver Ave., Reno, Nevada. You have been identified as the project contact, and all official correspondence regarding the project will be directed to you. We are happy to announce that based on the information provided in the application (former) Jean's Barbershop has been accepted into the Nevada Brownfields Program.

During this State Fiscal Year '08 (ending June 30, 2008), we have the resources available to undertake the cleanup of the site for petroleum hydrocarbon contamination and any other commingled hazardous substance issues. We have selected AMEC, out of their Sparks office, to undertake these services. I would like to setup a meeting early February to discuss the project with all involved parties.

If you have any questions, please feel free to contact me at (775) 687-9379. We will keep you involved and updated regarding all project information.

Sincerely,

Lisa Johnson, CEM, CHMM, EIT
